Long time trigger

Step 3#. System will show the following screen after making pair. Click "**Continue**"

Keyboard Setup Assistant

Introduction

Your keyboard cannot be identified and will not be usable until it is identified. To identify this keyboard click Continue.

If your keyboard is working properly and you have an additional USB input device connected to your computer that is not a keyboard, you can skip this step.

Continue

Step 4: Scanner any barcode when the system show the following screen.

The setup is done.
